

Web Design (ITW)

3rd computer exercise

Brno University of Technology, Faculty of Information Technology
Božetěchova 1/2. 602 00 Brno - Královo Pole
ilazur@fit.vut.cz

Published assignment 1. project

- **Deadline: 4. 4. 23:59**
- The aim of the project is to test the basic knowledge of the CSS language, individual CSS rules and the ability to apply different types of CSS selectors.

Beware of plagiarism!

- A variety of units are always used
- Sandbox

S	vw	vh	rem	em	
A	vmax	vmin			
B	%				
C	cm	mm			
F	in	px	pt		

<https://www.fit.vutbr.cz/study/courses/ITW/private/cviceni/>

- Build on your solution from the last exercise
- Make an assignment for **Exercise 3**
- Create a new style.css file
- Edit the page so that it looks the same as in the entry (fig. 1, fig. 2)
- You can use images from itw_cv3.zip
- Don't deal with responsiveness, the goal of the exercise is to format the page in the resolution of a regular window
- Verify your solution with **validator**

Required solution properties

- 1 Fonts: Arial, Helvetica, (generally fonts from Sans-serif family)
- 2 Colors:
 - #656565 - grey
 - #b15e23 - light brown on light background
 - #d5a17c - light brown on dark background
 - #3c1f0a - dark brown
- 3 Menu: small grey triangles appear when the cursor passes over the menu item
- 4 Horizontal lines under the sections Lectures and Exercises will be dotted
- 5 Table: formatting exactly matches the figure:

Jméno	Body					
	2010		2011		2012	
	Půlsem.	Zk.	Půlsem.	Zk.	Půlsem.	Zk.
Jan Novák	18	72	20	80	10	-
Zuzana Černá	10	50	20	75	25	99

- 6 Contacts: emails are right-aligned, email labels are left-aligned, both elements create visual columns
- 7 Related subjects: individual bullets take the form of pictures
- 8 Verify your solution with **validator**
